SPARE COPIES

Settlement - Resettlement - South Kanara district-
Puthur taluk - Survey Numbers 17/1 of village No.12
Mundaje and 173/13 of village No.16 Malaantige -
Wrong description - Rectification - Orders requeste

Survey Number 17/1 (0.38 cents) of village No.12
Mundaje and survey number 173/13 (2.31 Acs.Cts.) of
village No.16 Malaantige were classed as wet I
and wet II and assessed at Rs.3-12-0 and Re.1-0-0
respectively in the Old Settlement Register. The
registered holder of these lands has put in a
petition stating that the fields are on a high leve
and unsuited for wet cultivation and that their
classification as wet at the last Settlement was a
mistake. On inspection by the Settlement staff, tha
petitioner's statement is found to be correct. Sur
number 17/1 is a scrub jungle rising higher and
higher towards the adjoining hill and survey number
73/13 is a rugged piece of ground on a much higher
level than the adjoining registered wet lands. They
do not appear to have been under wet cultivation
at any time. Local enquiry also shows that the
present condition of the land is not due to any

charge subsequent to the last settlement but that they were in this state even at the time of last settlement. These are evidently settlement errors and I request that the Board may be pleased to direct the registry of the fields as dry 7-4-7 soil, rate Re-0-6-0 and [illegible] soil, rate Rs.0-6-0 respectively in the resettlement accounts. The above classifications have been suggested after inspection.

J. L. Ramanadham

S.A.22.12.35. For Special Settlement Officer.
